Quarkslab

MIFARE Classic: exposing the static encrypted nonce variant

Y'en a un peu plus, j'vous l'mets quand même?

Philippe Teuwen

15-11-2024

What to expect?

Breaking MIFARE Classic in 2024 ??

FM11RF08S 芯片 EEPROM 存储器的出厂配置数据如下：

Sector	Block	0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
0	0	UID				Chip Info											
	1	00															
	2	00															
	3	FF						FF	07	80	69	FF					
1	0	00															
	1	00															
	2	00															
	3	FF						FF	07	80	69	FF					
⋮																	
15	0	00															
	1	00															
	2	00															
	3	FF						FF	07	80	69	FF

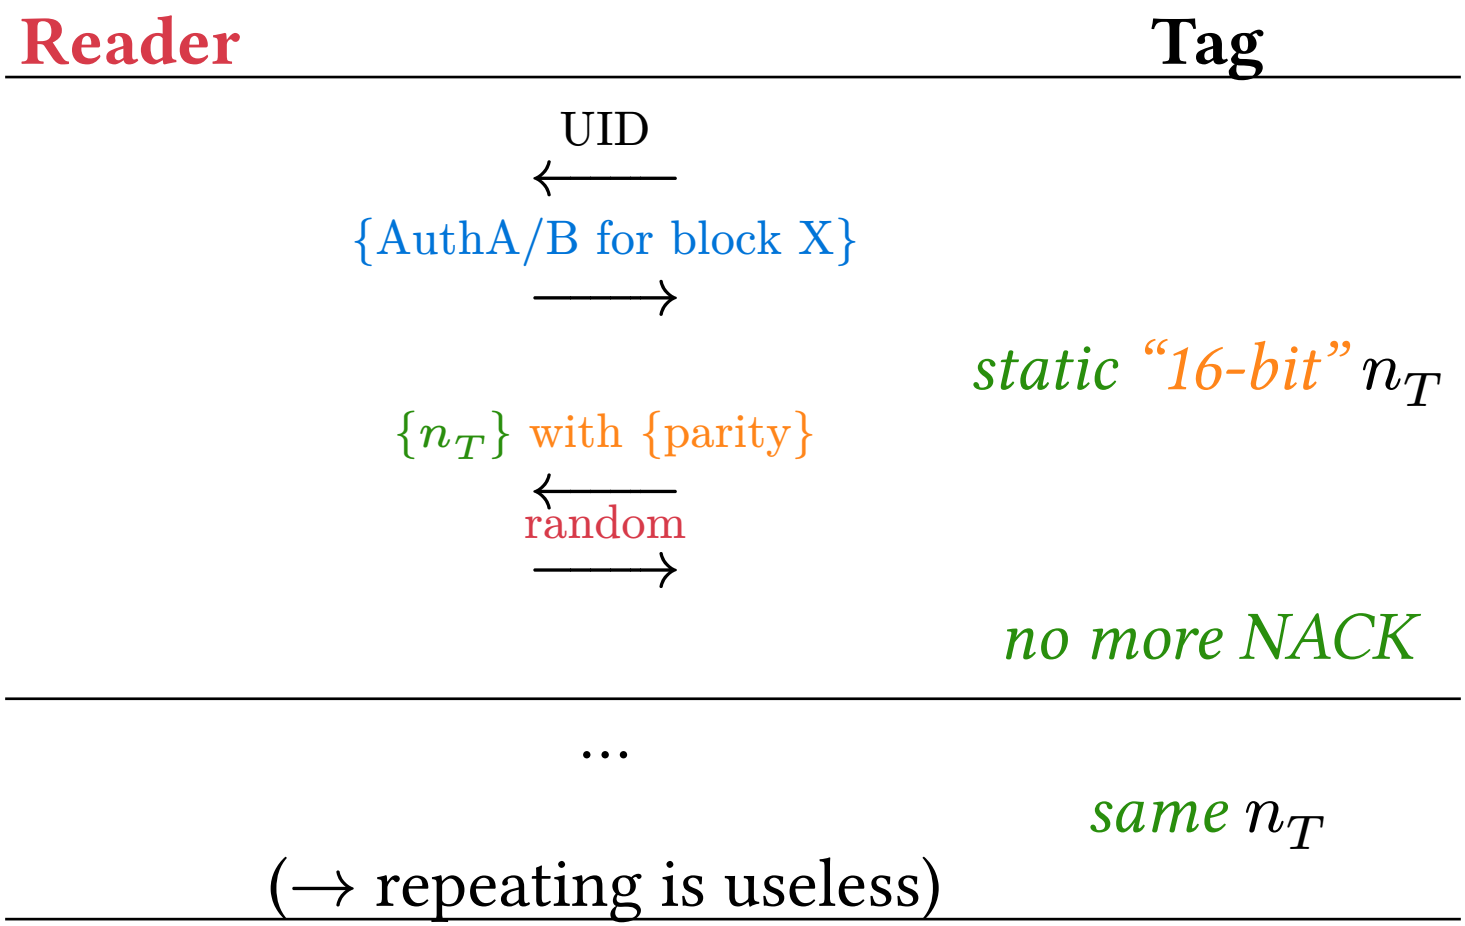
FM11RF08S aka Static Encrypted Nonce cards



Static Encrypted Nonce depends on

- the card
- the sector
- the key itself

Static Encrypted Nonce depends on

- the card
- the sector
- the key itself

Assume a key is repeated across some sectors / cards
